

A Letter From The President

Dear Members,

I am writing to you to follow up on several recent issues. In July we did have a problem with the CPR fish. After further review we did award 1st place to the 54 inch fish caught by captain Greg Virga on Medicine Man. This fish had been announced as the leader for most of the day which may have resulted in fish being thrown back. This incident will set the precedent for the future. Going forward there will be ZERO TOLERANCE. During tournaments the top 3 fish in weight and CPR will be announced. This will ensure we have a clear winner and possible contender is not thrown back. In the event there is no clear winner the board of directors will decide what to do with the prize money. There will be NO REFUNDS. This issue is a learning curve for all of us and I apologize on behalf of the club for any confusion. We will continue to do our best to be fair, unbiased and impartial.

We have also received negative feedback regarding not having the MOMC scale and live tank set up at the Muskie Bash. The muskie bash is NOT an MOMC event nor do we sponsor the event. We are happy to help in any way if the chairperson of the muskie bash would like our assistance in the future.

We ask for your suggestions on solutions to problems. There is not perfect anything so we ask our members to help us work out issues as they arise. With todays technology director David Antzcak and secretary Corinne Skinner have worked hard to get the club website and facebook page available for information and feedback. Our directors could use some positive feedback, they are genuinely trying to do a good job. Stop chastising them every time someone finds a flaw and instead commend their efforts and time!

In the future we will be sending out more surveys to club members to see what they would like from the club. I appreciate you taking time to read this and encourage everyone to participate and help when they can!

Sincerely,

Brad Smith MOMC president
