

# 2019 MOMC Newsletter 63 years of Sport Fishing

## August Volume 13 Issue 8

### News and events:

always review the rules for any and all MOMC events, year end side bets and registering fish. If you have questions about any rules please contact a director! There is a pdf version of the 2019 yearbook available on our website at all times

### 2019 Board of Directors

#### Executive Board

Brad Smith- President  
Scott Murray - Vice President  
Rich Maison - Treasurer  
Corinne Skinner – Secretary  
Dave Clark – Comptroller  
Jason Wiegand - Clerk

#### Directors

Antony lafrate Tony Virga  
Jim Fleming Kurt Nowicki Mark Nowicki  
Frank Coppola Dave Zagacki  
Dave Herschelmann John Gallagher  
Aaron Sleight David Antczak  
Lance Koester (weigh master)

**Joe Pierce Memorial Derby**  
**September 14<sup>th</sup> and 15<sup>th</sup>**  
**scale at Miller Marina Fuel Dock**

All season long we will be collecting photos for the yearbook! Send your fishing photos to [momclsc@gmail.com](mailto:momclsc@gmail.com)

# 2019 Musk-E-Meet!

The annual Musk-E-Meet took place August 18<sup>th</sup> at Shore Club Marina in St. Clair Shores. We were honored to have around 55 veterans and 19 boats participate this year!

**Thank you very much  
2019 sponsors!!!**

We would also like to thank our 2019 first mates and captains!

**Congratulations winners!**

**1<sup>st</sup> Finlander 50 inches**

**2<sup>nd</sup> Game On 49 inches**

**3<sup>rd</sup> Gremlin Chaser 48 ½ inches**

**Big Fish of the Hour**

**9am Big D 43 ½**

**10am Finlander 50 inches**

**11am SS Pentunia 47 1/2inches**

**12pm Gremlin Chaser 48 1/2inches**

**1pm Trophy Hunter 48 inches**

**2pm Downtime 38 inches**

# 2019 Musk-E-Meet!

# Club Members News

## Happy Birthday!

Steven Kopp and Tom Loy

Congratulations to Spencer Berman and Andy Cocke who finished in 3<sup>rd</sup> and 8<sup>th</sup> place in this years Bondy Bait Musky Slam casting tournament, cracking the Top 10 out of 106 anglers!

## Welcome New Members!

Mark Goedge II

## Happy Anniversary

Carl and Kristen Reams

Scott and Jennifer D'Eath

Rocky Richards and team Ship It IV  
with their 38.25lbs fish

# Tournament Corner

The Bill Maerten 40 Pound Derby and Summer Place took place on August 10<sup>th</sup> and 11<sup>th</sup> with the scaled located at the Belle River Marina. Fishing started out slow Saturday but quickly picked up for all the competing teams which lead to some beautiful fish being brought in to the scale!

## Congratulations

1<sup>st</sup> CLUB Rocky Richards Ship It IV 38.25LBS

2<sup>nd</sup> CLUB 1<sup>st</sup> SIDE BET Russ Pilette Fishwhore 32.50LBS

3<sup>rd</sup> CLUB 2<sup>nd</sup> SIDE BET Matt Mueller Huntress 31.80LBS

3<sup>rd</sup> SIDE BET Russ Pilette Fishwhore 30.50LBS

CPR 52 3/8 Fishwhore

# Bill Maerten 40 Pound Derby and Summer Slam

## Radio Etiquette!

Please remember many members are fishing with children and their families on board. Be conscious of what you say on the radio and keep your chatter professional as you are representing the club! It is NEVER acceptable to threaten a director or another club member via the radio and if we identify you there will be severe consequences such as suspension or worse.

### CLUB Notes

Please be advised, the club's address is:

21817 Bon Heur St.

St Clair Shores, MI 48081

**Starting this year the DNR will require all musky caught during tournaments to be logged. You can visit our website for more information on this upcoming change!**

**Members with Guests must notify a MOMC board member (President, VP Secretary, Treasurer or weigh master) or Registered on PayPal should be paid (if possible) before 8:00 a.m Saturday for the monthly derby. You will not be allowed to weigh in a fish if you have not notified the club that you have guests on board before you start fishing!**

## Michigan Corner: New DNR Catch Diary Program

### Lake St. Clair Muskellunge Angler Diary Program

**We need avid Muskie anglers to join our Angler Diary Program!**

#### **Who:**

Non-charter anglers  
Avid anglers (5+ trips/year)  
Fish Lake St. Clair system

#### **Requirements:**

Record trip information  
Measure all Muskie caught  
Send in data at end of season

#### **Benefits of Program**

Angler receives personal summary of season's fishing activity  
Contribute quality data used to make better informed decisions  
Build Angler/DNR relationships  
Improve our understanding of Lake St. Clair Muskie fishery  
**FREE Fishing Gear!**

#### **Contact Brad Utrup to Join Program**

Email: [UtrupB@Michigan.gov](mailto:UtrupB@Michigan.gov)

Call: (586) 465-4771 x25

**Send us your photos all season long to be featured in next years yearbook!  
Email photos to [momclsc@gmail.com](mailto:momclsc@gmail.com)**

# CPR Divison

on the left is an example of a regulation CPR photo. Entire board must be visible in the photo, hands are separated, mouth closed, tail pinched, length of fish is clearly visible, CPR board number and CPR number for the day clearly visible in photo

## REMINDERS!

- You must write and call in your board number exactly as stamped! If the number is stamped on your board as 054 then your board number IS 054
- During a tournament You must present your photo to the CPR board for verification at the awards dinner. A representative of the boat must be present for the review process. FOR A MONTHLY TOURNAMENT A TEXTED PHOTO WILL NOT BE ACCEPTED AS AN OFFICAL SUBMISSION
- Failure to meet the requirements for a CPR photo will result in disqualification THIS WILL BE STRICTLY ENFORCED NO EXCEPTIONS/ZERO TOLERANCE
- If at any point you have a question about how to take a regulation CPR photo please contact a director for guidance or consult your yearbook for examples!

# A Letter From The President

To all members,

The tournament side bet registration deadline is Friday night before the tournament at 6:00pm. There will be no exceptions! Please do not call a director if you miss the cutoff time. Calling a director or threatening a director regarding a missed deadline is not acceptable and you may face a tournament suspension for doing so. The club has been doing its best to accommodate everyone. We are transparent and unbiased. Our club treasurer has plenty of work to do. It takes hours to gather all the information and compile it for the tournaments. Therefore, please be considerate and responsible. Respect the deadline!

Thank you all for your cooperation,  
MOMC President Brad Smith

# Rules and Regulations

The cutoff time for signing up for the derby side bets will be Friday night at 6:00pm. NO EXCEPTIONS!

No Minimum Length in CPR

Please include the number for the weekend and 2019 in your picture. No transfer of fish from boat to boat for measuring purposes.

When fishing a CPR event you will need to display your board number in a visible location on your vessel. This can be as simple as placing a piece of paper with your board number in the window. CPR board numbers should be visible on both sides of your vessel.

**Reminder: if you are fishing a club tournament you need to have a MOMC flag flying in a visible location on your vessel. There are flags available for purchase at the Miller Marina Fuel Dock**

Guest members can be added at any time to your boat for convenience. You must report these guests to a board member or the weigh master and pay for these guest members at the awards dinner on Sunday or via paypal. You will not be allowed to weigh in a fish if you have not notified a director of guests aboard your vessel! **All minors are guests of the club and cost nothing to bring on your boat. They DO NOT have to be related or part of your family membership!**

# Rules and Regulations

Check out our new flowchart to help members know when and for what a fish is eligible to be registered! You will be able to find this all season long in your yearbook, on the website, in the newsletter and on our facebook page! \*please note any individual questions or circumstances not clearly resolved by using the flowchart will be handled by the board of directors\*

## MOMC Flowchart for Registering Fish

# New Angler/Boat Pairing Project!

Looking to join a team for a monthly tournament or looking for another angler to complete your team? We will be starting a new program to help pair up anglers and boats within the club. If at any time you are either looking to join a team or looking for anglers to join you simply email us at [momclsc@gmail.com](mailto:momclsc@gmail.com) with your contact info! You will be able to find a list of anglers/boats all year long on our website and facebook page along with contact info! **The goal is to bring club members together and help everyone get fishing!**

## A Notice from the Board

All MOMC Board meetings are open to any active member. They are able to interject but unable to vote on any agenda items or motions. The meeting are held the 1st Tuesday of the month at Gilberts on Harper ave.

# ATTENTION

On January 1, 2019, by law, all bass and walleye fishing tournaments and competitive fishing events targeting muskellunge are required to be registered in the Michigan Fishing Tournament Information System (FTIS). Any suspicion of an unregistered bass, walleye or muskellunge event being held in Michigan should be promptly reported to the Report All Poaching Hotline: 800-292-7800.

# Heart Attack: First Aid

We are in the beginning stages of organizing a certified CPR and First Aid class that is American Heart Assoc. approved this Spring. We will keep you abreast of the time and date. This will count for USCG captain requirements and healthcare worker requirements.

[By Mayo Clinic Staff](#)

**Someone having a heart attack may experience any or all of the following:**

- Uncomfortable pressure, fullness or squeezing pain in the center of the chest
- Discomfort or pain spreading beyond the chest to the shoulders, neck, jaw, teeth, or one or both arms, or occasionally upper abdomen
- Shortness of breath
- Lightheadedness, dizziness, fainting
- Sweating
- Nausea
- A heart attack generally causes chest pain for more than 15 minutes, but it can also have no symptoms at all. Many people who experience a heart attack have warning signs hours, days or weeks in advance.

**What to do if you or someone else may be having a heart attack**

- **Call 911 or your local medical emergency number.** Don't ignore or attempt to tough out the symptoms of a heart attack for more than five minutes. If you don't have access to emergency medical services, have a neighbor or a friend drive you to the nearest hospital. Drive yourself only as a last resort, and realize that it places you and others at risk when you drive under these circumstances.
- **Chew and swallow an aspirin,** unless you are allergic to aspirin or have been told by your doctor never to take aspirin. But seek emergency help first, such as calling 911.
- **Take nitroglycerin,** if prescribed. If you think you're having a heart attack and your doctor has previously prescribed nitroglycerin for you, take it as directed. Do not take anyone else's nitroglycerin, because that could put you in more danger.
- **Begin CPR if the person is unconscious.** If you're with a person who might be having a heart attack and he or she is unconscious, tell the 911 dispatcher or another emergency medical specialist. You may be advised to begin cardiopulmonary resuscitation (CPR). If you haven't received CPR training, doctors recommend skipping mouth-to-mouth rescue breathing and performing only chest compressions (about 100 per minute). The dispatcher can instruct you in the proper procedures until help arrives.
- **If an automated external defibrillator (AED) is available** and the person is unconscious, begin CPR while the device is retrieved and set up. Attach the device and follow instructions that will be provided by the AED after it has evaluated the person's condition.

# ATTENTION ANGLERS: NEW MUSKELLUNGE STUDY

DNR Lake St. Clair Fisheries Research Station and Lake Erie Management Unit

May 2016

## Help needed for Muskellunge tagging study

In order to understand the movements and behavior of Muskellunge and their associated fishery within the St. Clair-Detroit River System the Michigan Department of Natural Resources is launching a new study. The first step for this study begins this spring when a small number of Muskies (~20) will be tagged during the DNR's annual spring egg take in the Detroit River. Each fish will receive an internal acoustic tag which is automatically detected by listening stations deployed throughout the region. An **ORANGE** external FLOY tag will also be attached below the dorsal fin (see photos below). If you catch a tagged Muskie and plan to release it: please **DO NOT** remove the tag. Please record the tag number and contact Jan-Michael Hessenauer at (586) 465-4771 ext 35 or email: [hessenauerj1@michigan.gov](mailto:hessenauerj1@michigan.gov). If you harvest a tagged Muskie please remove the acoustic tag (approximate location shown below) and report the tag as per above. Reporting of tagged fish is greatly appreciated and will maximize the benefit of this study to the management of fisheries in the St. Clair-Detroit River System. Thank you!

If you catch a tagged Muskie  
and plan to release it:

**-Please DO NOT remove the tag**

**Please Record:**

**-The tag number**

**-Location of capture**

**-Time of capture**

**Call / Email:**

**Jan-Michael Hessenauer**

**Michigan DNR**

**(586) 465-4771 ext 35**

**[hessenauerj1@michigan.gov](mailto:hessenauerj1@michigan.gov)**

# Keep the Lake Clean

**Be a part of the solution!**

Eurasian Watermilfoil

Silver Carp

## Aquatic Hitchhikers

Volunteer cleaning boat propeller  
Ann Arbor

Invasive aquatic animals and plants are spreading at alarming rates by hitching rides with anglers and boaters. Whenever boaters leave a body of water without cleaning their recreational equipment, they may be transporting one of these harmful creatures from one lake or stream to another. A few invasive species are highlighted in this brochure.

**ROUND GOBIES** are bottom-dwelling fish that compete with native fish, like sculpins and log perch. They're also aggressive egg predators – feeding on the eggs of other fish, such as smallmouth bass and walleye, contributing to the potential decline of many valuable sport fish populations.

Round Goby

**ASIAN CARP**, including the high-jumping silver carp and the voracious bighead carp, pose a serious threat to native species.

Canals and other connections to the Mississippi River Basin could allow Asian carp into the Great Lakes. Boaters and anglers can do their part to avoid accidentally transporting carp eggs, larvae, and young in bilge water, livewells or bait buckets.

Silver Carp

**ZEBRA and QUAGGA MUSSELS** feed extensively on algae and plankton, thereby disrupting the delicate balance of the entire aquatic ecosystem.

Just because they make the water clearer by eating plankton doesn't mean they're good for lakes! In addition to changing the food web, the filter-feeding invasives build up contaminants in their bodies, which in turn, exposes other animals to higher levels of contaminants. They have been known to attach onto and kill native species of mussels. While zebra mussels can colonize any hard object, quagga mussels are far more versatile. They can live in colder, deeper water and thrive on a sandy lake bottom.

Quagga mussel

Zebra mussel

**EURASIAN WATERMILFOIL, PHRAGMITES AUSTRALIS and PURPLE LOOSESTRIFE** are invasive aquatic plants that also endanger our waters and wetlands. While they may look harmless, these plants can crowd out native plants and take over large areas quickly. Milfoil, a submerged plant, often gets wrapped around boat propellers. It's important to clean plants like Eurasian watermilfoil off of your boat and trailer because they can reproduce in new areas from a strand as little as two inches long.

Phragmites

## Found Something Strange?

The Great Lakes Aquatic Non-indigenous Species Information System (GLANSIS) website is your one-stop portal for Great Lakes invaders. If you find an invasive species while boating or fishing, check GLANSIS first for:

- Identification information to verify if it is a native or non-native species.
- Fact sheets about invasive species impacts.
- Collection details: has this species been documented before in this body of water?
- Link to a reporting form to help scientists track the spread of aquatic non-native species.
- GLANSIS:
