8 Rod Maximum

Awards dinner at Miller Marina in St Clair Shores
Sunday at 3:00pm

Club Members News

Happy Birthday!

Kyle Smart, Aaron Smith,
Lynn Baumgarten, Ryan Kaufman, Tim
DiMartino, Matt Marfuta, Anthony
Iafrate, Jim Rapier, Lucy Ardanowski,
Joey Virga Ziggie Obidzinski and Aaron
Sleight

**Congratulations to club members
Abbie Sand and Andy Cocke on your
marriage September 7th. Congrats Mr.
and Mrs. Cocke!**

**Congratulations to club member Ryan
Kaufman and his bride Kristina on
their wedding!**

Kurt Nowicki and Team Reel Therapy
with their 34.45LBS fish

Tournament Corner

The Joe Pierce Memorial Derby
was held September 14th and
15th with the scale at Miller
Marina Fuel Dock. Fishing
Conditions were tough all
weekend between wind and
rain. However, several beautiful
fish were caught over the
weekend.

1st Club and Side Bet
Kurt Nowicki – Reel Therapy
34.45LBS

2nd Club and Side Bet
Paul Carabelli – La Bella Vita
31.75LBS

CPR Winner
Whopper Stopper
52.25 inches

Joe Pierce Memorial Derby

Radio Etiquette!

Please remember many members are fishing with children and their families on board. Be conscious of what you say on the radio and keep your chatter professional as you are representing the club! It is NEVER acceptable to threaten a director or another club member via the radio and if we identify you there will be severe consequences such as suspension or worse.

CLUB Notes

Please be advised, the club's address is:

21817 Bon Heur St.

St Clair Shores, MI 48081

Starting this year the DNR will require all musky caught during tournaments to be logged. You can visit our website for more information on this upcoming change!

Members with Guests must notify a MOMC board member (President, VP Secretary, Treasurer or weigh master) or Registered on PayPal should be paid (if possible) before 8:00 a.m Saturday for the monthly derby. You will not be allowed to weigh in a fish if you have not notified the club that you have guests on board before you start fishing!

Michigan Corner: New DNR Catch Diary Program

Lake St. Clair Muskellunge Angler Diary Program

We need avid Muskie anglers to join our Angler Diary Program!

Who:

Non-charter anglers
Avid anglers (5+ trips/year)
Fish Lake St. Clair system

Requirements:

Record trip information
Measure all Muskie caught
Send in data at end of season

Benefits of Program

Angler receives personal summary of season's fishing activity
Contribute quality data used to make better informed decisions
Build Angler/DNR relationships
Improve our understanding of Lake St. Clair Muskie fishery
FREE Fishing Gear!

Contact Brad Utrup to Join Program

Email: UtrupB@Michigan.gov

Call: (586) 465-4771 x25

**Send us your photos all season long to be featured in next years yearbook!
Email photos to momclsc@gmail.com**

CPR Divison

on the left is an example of a regulation CPR photo. Entire board must be visible in the photo, hands are separated, mouth closed, tail pinched, length of fish is clearly visible, CPR board number and CPR number for the day clearly visible in photo

REMINDERS!

- You must write and call in your board number exactly as stamped! If the number is stamped on your board as 054 then your board number IS 054
- During a tournament You must present your photo to the CPR board for verification at the awards dinner. A representative of the boat must be present for the review process. FOR A MONTHLY TOURNAMENT A TEXTED PHOTO WILL NOT BE ACCEPTED AS AN OFFICAL SUBMISSION
- Failure to meet the requirements for a CPR photo will result in disqualification **THIS WILL BE STRICTLY ENFORCED NO EXCEPTIONS/ZERO TOLERANCE**
- If at any point you have a question about how to take a regulation CPR photo please contact a director for guidance or consult your yearbook for examples!

A Letter From The President

To all members,

The tournament side bet registration deadline is Friday night before the tournament at 6:00pm. There will be no exceptions! Please do not call a director if you miss the cutoff time. Calling a director or threatening a director regarding a missed deadline is not acceptable and you may face a tournament suspension for doing so. The club has been doing its best to accommodate everyone. We are transparent and unbiased. Our club treasurer has plenty of work to do. It takes hours to gather all the information and compile it for the tournaments. Therefore, please be considerate and responsible. Respect the deadline!

Thank you all for you cooperation,
MOMC President Brad Smith

Rules and Regulations

The cutoff time for signing up for the derby side bets will be Friday night at 6:00pm. NO EXCEPTIONS!

No Minimum Length in CPR

Please include the number for the weekend and 2019 in your picture. No transfer of fish from boat to boat for measuring purposes.

When fishing a CPR event you will need to display your board number in a visible location on your vessel. This can be as simple as placing a piece of paper with your board number in the window. CPR board numbers should be visible on both sides of your vessel.

Reminder: if you are fishing a club tournament you need to have a MOMC flag flying in a visible location on your vessel. There are flags available for purchase at the Miller Marina Fuel Dock

Guest members can be added at any time to your boat for convenience. You must report these guests to a board member or the weigh master and pay for these guest members at the awards dinner on Sunday or via paypal. You will not be allowed to weigh in a fish if you have not notified a director of guests aboard your vessel! **All minors are guests of the club and cost nothing to bring on your boat. They DO NOT have to be related or part of your family membership!**

Rules and Regulations

Check out our new flowchart to help members know when and for what a fish is eligible to be registered! You will be able to find this all season long in your yearbook, on the website, in the newsletter and on our facebook page! *please note any individual questions or circumstances not clearly resolved by using the flowchart will be handled by the board of directors*

MOMC Flowchart for Registering Fish

*Individual circumstances will be up to the discretion of the board of directors

New Angler/Boat Pairing Project!

Looking to join a team for a monthly tournament or looking for another angler to complete your team? We will be starting a new program to help pair up anglers and boats within the club. If at any time you are either looking to join a team or looking for anglers to join you simply email us at momclsc@gmail.com with your contact info! You will be able to find a list of anglers/boats all year long on our website and facebook page along with contact info! **The goal is to bring club members together and help everyone get fishing!**

A Notice from the Board

All MOMC Board meetings are open to any active member. They are able to interject but unable to vote on any agenda items or motions. The meeting are held the 1st Tuesday of the month at Gilberts on Harper ave.

ATTENTION

On January 1, 2019, by law, all bass and walleye fishing tournaments and competitive fishing events targeting muskellunge are required to be registered in the Michigan Fishing Tournament Information System (FTIS). Any suspicion of an unregistered bass, walleye or muskellunge event being held in Michigan should be promptly reported to the Report All Poaching Hotline: 800-292-7800.

Heart Attack: First Aid

We are in the beginning stages of organizing a certified CPR and First Aid class that is American Heart Assoc. approved this Spring. We will keep you abreast of the time and date. This will count for USCG captain requirements and healthcare worker requirements.

[By Mayo Clinic Staff](#)

Someone having a heart attack may experience any or all of the following:

- Uncomfortable pressure, fullness or squeezing pain in the center of the chest
- Discomfort or pain spreading beyond the chest to the shoulders, neck, jaw, teeth, or one or both arms, or occasionally upper abdomen
- Shortness of breath
- Lightheadedness, dizziness, fainting
- Sweating
- Nausea
- A heart attack generally causes chest pain for more than 15 minutes, but it can also have no symptoms at all. Many people who experience a heart attack have warning signs hours, days or weeks in advance.

What to do if you or someone else may be having a heart attack

- **Call 911 or your local medical emergency number.** Don't ignore or attempt to tough out the symptoms of a heart attack for more than five minutes. If you don't have access to emergency medical services, have a neighbor or a friend drive you to the nearest hospital. Drive yourself only as a last resort, and realize that it places you and others at risk when you drive under these circumstances.
- **Chew and swallow an aspirin,** unless you are allergic to aspirin or have been told by your doctor never to take aspirin. But seek emergency help first, such as calling 911.
- **Take nitroglycerin,** if prescribed. If you think you're having a heart attack and your doctor has previously prescribed nitroglycerin for you, take it as directed. Do not take anyone else's nitroglycerin, because that could put you in more danger.
- **Begin CPR if the person is unconscious.** If you're with a person who might be having a heart attack and he or she is unconscious, tell the 911 dispatcher or another emergency medical specialist. You may be advised to begin cardiopulmonary resuscitation (CPR). If you haven't received CPR training, doctors recommend skipping mouth-to-mouth rescue breathing and performing only chest compressions (about 100 per minute). The dispatcher can instruct you in the proper procedures until help arrives.
- **If an automated external defibrillator (AED) is available** and the person is unconscious, begin CPR while the device is retrieved and set up. Attach the device and follow instructions that will be provided by the AED after it has evaluated the person's condition.

ATTENTION ANGLERS: NEW MUSKELLUNGE STUDY

DNR Lake St. Clair Fisheries Research Station and Lake Erie Management Unit

May 2016

Help needed for Muskellunge tagging study

In order to understand the movements and behavior of Muskellunge and their associated fishery within the St. Clair-Detroit River System the Michigan Department of Natural Resources is launching a new study. The first step for this study begins this spring when a small number of Muskies (~20) will be tagged during the DNR's annual spring egg take in the Detroit River. Each fish will receive an internal acoustic tag which is automatically detected by listening stations deployed throughout the region. An **ORANGE** external FLOY tag will also be attached below the dorsal fin (see photos below). If you catch a tagged Muskie and plan to release it: please **DO NOT** remove the tag. Please record the tag number and contact Jan-Michael Hessenauer at (586) 465-4771 ext 35 or email: hessenauerj1@michigan.gov. If you harvest a tagged Muskie please remove the acoustic tag (approximate location shown below) and report the tag as per above. Reporting of tagged fish is greatly appreciated and will maximize the benefit of this study to the management of fisheries in the St. Clair-Detroit River System. Thank you!

If you catch a tagged Muskie

and plan to release it:

-Please DO NOT remove the tag

Please Record:

-The tag number

-Location of capture

-Time of capture

Call / Email:

Jan-Michael Hessenauer

Michigan DNR

(586) 465-4771 ext 35

Keep the Lake Clean

Be a part of
the solution!

Eurasian Watermilfoil

Silver Carp

Aquatic Hitchhikers

Volunteer cleaning boat propeller
Ann Arbor

Invasive aquatic animals and plants are spreading at alarming rates by hitching rides with anglers and boaters. Whenever boaters leave a body of water without cleaning their recreational equipment, they may be transporting one of these harmful creatures from one lake or stream to another. A few invasive species are highlighted in this brochure.

ROUND GOBIES are bottom-dwelling fish that compete with native fish, like sculpins and log perch. They're also aggressive egg predators – feeding on the eggs of other fish, such as smallmouth bass and walleye, contributing to the potential decline of many valuable sport fish populations.

Round Goby

ASIAN CARP, including the high-jumping silver carp and the voracious bighead carp, pose a serious threat to native species.

Canals and other connections to the Mississippi River Basin could allow Asian carp into the Great Lakes. Boaters and anglers can do their part to avoid accidentally transporting carp eggs, larvae, and young in bilge water, livewells or bait buckets.

Silver Carp

ZEBRA and QUAGGA MUSSELS feed extensively on algae and plankton, thereby disrupting the delicate balance of the entire aquatic ecosystem.

Just because they make the water clearer by eating plankton doesn't mean they're good for lakes! In addition to changing the food web, the filter-feeding invasives build up contaminants in their bodies, which in turn, exposes other animals to higher levels of contaminants. They have been known to attach onto and kill native species of mussels. While zebra mussels can colonize any hard object, quagga mussels are far more versatile. They can live in colder, deeper water and thrive on a sandy lake bottom.

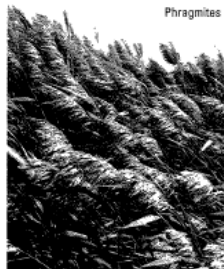

Quagga mussel

Zebra mussel

EURASIAN WATERMILFOIL, PHRAGMITES AUSTRALIS and PURPLE LOOSESTRIFE are invasive aquatic plants that also endanger our waters and wetlands. While they may look harmless, these plants can crowd out native plants and take over large areas quickly. Milfoil, a submerged plant, often gets wrapped around boat propellers. It's important to clean plants like Eurasian watermilfoil off of your boat and trailer because they can reproduce in new areas from a strand as little as two inches long.

Phragmites

Found Something Strange?

The Great Lakes Aquatic Non-indigenous Species Information System (GLANSIS) website is your one-stop portal for Great Lakes invaders. If you find an invasive species while boating or fishing, check GLANSIS first for:

- Identification information to verify if it is a native or non-native species.
- Fact sheets about invasive species impacts.
- Collection details: has this species been documented before in this body of water?
- Link to a reporting form to help scientists track the spread of aquatic non-native species.
- GLANSIS:
www.glerl.noaa.gov/res/Programs/glansis
